

Lessons Learned / Intern Experience

As the Energy Justice Intern, I’ve learned how to incorporate community and equity concerns when addressing the environmental issues.

Professional Experiences:
1. Drafting and catering reports to a specific audience
2. Creating a transitional document for future references
3. Bridging a broader network of community contacts
4. Looking and researching viable options to accomplish the vision

Recommendations for Improvement / Program Expansion:
1. More contacts with Energize Colleges interns from other campuses
2. Rallying more student engagement and direct actions

Eric Yang

Eric is a 4th year Business Economics Major and Accounting Minor with experience as a Retention Coordinator at the Dreamers Resource Center at UC Irvine. Eric’s goals are to continue to advocate for Immigrant Rights and Equity in the business sector.
